

Fastening Set for Angle Bracket 8 160x160 M8

Angle Bracket 8 160x160 Al is a heavy-duty fastening element for power-lock, non-machined interconnection of large Profiles 8. It can also be used for screwing profiles to floors and walls and for fastening heavy parts that are not part of the MB Building Kit System. Angle Bracket 8 160x160 Al M8 is fastened to the profile with the Fastening Set. Up to 4 Fastening Sets per Angle Bracket are required depending on the combination of profiles used.

When used as a reinforcing element at points where large profiles are joined, several Angle Brackets may be used in parallel. N.B.: The maximum permissible tensile load-carrying capacity of the profile groove should not be exceeded!

Scope of Delivery

Profile Bar 8 St M8, bright zinc-plated
4 Button-Head Screws ISO 7380-M8x20, St, bright zinc-plated
4 washers DIN 1441-9.0, St, bright zinc-plated
