

# Standard-Fastening Set KH 8, bright zinc-plated

Standard-Fastening Set KH 8, bright zinc-plated from item joins two Line KH 8 profiles at a right angle. The connecting plate is made of bright zinc-plated steel and projects into the grooves on both sides to ensure the alignment of the profiles is torsion-resistant. A self-tapping screw needs to be driven into the core bore of the first profile to install the fastener. The second profile requires an installation bore and is connected in a fixed position.

### Scope of Delivery

Standard connecting plate 8, St  
Button-Head Screw KH 8x55, TX30, St
