

Ventilation Grille 8 40 1200x320

Ventilation Grille 8 40 1200x320 is made of stainless steel and provides a simple means to control the air pressure in a room. The airflow through the Ventilation Grille is regulated manually using a sliding panel.

The Ventilation Grille fits flush when installed in a wall that is 40 mm deep. Thanks to its large maximum slot width, it is easy to clean. The Ventilation Grille can also be removed and disassembled for thorough cleaning.

The Ventilation Grille has been developed in line with the stipulations of DIN EN ISO 14644, GMP guides and the EHEDG.
