

# Railing Holder 8 K, black similar to RAL 9005

✓ REACH ✓ RoHS

Railing Holder 8 K is a time-saving fixing for a side guide made of Slide Strips that runs along the outside edge of a frame at a fixed height. The plastic holder is simply twisted into place at regular intervals along the Line 8 groove of the load-carrying frame. The integrated hammer head secures the Railing Holder without the need for screw fixings and can be aligned quickly. The Slide Strip is also pushed into place.
