

# Selector Switch M22 1NO 1NC M12, Male Connector, A-coded

✓ REACH ✓ RoHS

Selector Switch M22 1NO 1NC M12, Male Connector, A-coded is an industrial operating element for lights, devices and machinery. Its toggle grip with a 90° switching angle latches securely into two positions. This turn switch can be used as both a normally closed (NC) and a normally open (NO) contact.

The toggle switch, cable and M12 male connector are preassembled and ready to connect. This ensures assembly can be completed quickly and easily, with no wiring outlay.
