

Pushbutton M22 1NO 1NC M12, Male Connector, A-coded

✓ REACH ✓ RoHS

Pushbutton M22 1NO 1NC M12, Male Connector, A-coded is an industrial operating element for lights, devices and machinery. The button does not latch into position. It can be used as both a normally closed (NC) and a normally open (NO) contact.

The pushbutton, cable and M12 male connector are preassembled and ready to connect. This ensures assembly can be completed quickly and easily, with no wiring outlay. The coloured caps supplied can be used to help distinguish between several buttons with different functions.
